Molecular BioProducts

ART[®], Low Retention, and BreakThru[™]

Web Video Demonstrations

San Diego, CA, February 2003 - Molecular BioProducts, Inc., (MBP[®]) the world's leading manufacturer of pipet tips for contamination control, is pleased to announce our enhanced website at www.mbpinc.com. Now available are four short product videos demonstrating MBP's unique [low retention](#) tip's; for both the handheld and the BioRobotix pipettor tips. Also, the newly developed [BreakThru](#) process of a non-mechanical packaging design system that loads 96 tips at once, easily, reliably; and MBP's patented [Aerosol Resistant Tip](#) (ART[®]) which is a self-sealing filter tip that protects pipettors from crossover contamination by not allowing liquids or aerosols to come into contact with the pipettor. Our new product videos will demonstrate each product's unique advantages and free product samples can be requested on-line.

MBP's website also features comprehensive detail pages on each of MBP's top quality product lines: ART[®] barrier tips, BioRobotix[™] tips, MBP tips, Solvent Safe[™] tips, PCR accessories, surface decontaminants, electroporation cuvettes, as well as storage racks and plates. Customers can obtain samples of these products through the sample cart function.

For more information or to request a free sample, log on to Molecular BioProducts' web site at www.mbpinc.com, send an email to info@mbpinc.com, or contact us at (800)955-2787 or (858)453-7551.
