## **Molecular BioProducts® Introduces The New Clear Tecan Tips for Tecan Genesis and MultiPROBE II HT Workstations**

San Diego, CA – April 2003, Molecular BioProducts, Inc., the leading manufacturer of pipet tips for automated workstations, introduces the new Clear tips for the Tecan Genesis and Perkin-Elmer/Packard MultiPROBE II HT workstations. These popular tips are being re-launched into the marketplace to meet the growing demand of clear tips for these workstations; Molecular BioProducts is one of the only companies to make these tips available for researchers.

These Clear Tecan Style tips will be available in four sizes (20ul, 50ul, 200ul, 1000ul). Additionally, within each size, these tips will be available as sterile, non-sterile, or with our patented ART® self-sealing barrier (filter). MBP's new tips, as with all of MBP's BioRobotix™ brand products, are quality control tested on the workstations for which they were created.

Molecular BioProducts (MBP®) is the leading manufacturer in superior quality disposable lab supplies to the life science industry and has been serving molecular biologists in the biotech, academic and pharmaceutical workplace around the globe for over a decade. Our extensive product line consists of the ART® (Aerosol Resistant Tip), MBP Pipet Tips, PCR accessories and our broad line of BioRobotix™ brand tips for automated workstations. MBP's focus is to provide value added solutions and quality products for the life science researcher's liquid handling needs.
