Molecular BioProducts® Introduces Perkin-Elmer (Packard) CCS 384-Well Tips in a 96-Well Format

San Diego, CA – May 2003, Molecular BioProducts, Inc., the leading manufacturer of pipet tips for automated workstations, introduces its newest tip packaging for the PlateTrak, MiniTrak and Evolution P-3 with 384-well heads.

These 384 well pipet tips have been packaged 96 tips per tray such that you can use your 384 well head as a 96 well dispenser – eliminating the time necessary to change pipetting heads or the need to purchase a second, 96-well head. They are compatible with 96, 384 and 1536 well plates. These novel tips are available in a 20ul format with our patented **ART**® self-sealing barrier (filter), as well as in a 30ul non-sterile format.

For more information or to request a free sample, log on to Molecular BioProducts' web site at www.mbpinc.com, send an email to info@mbpinc.com, or contact us at (800) 955-2787 or (858) 453-7551.
