Molecular BioProducts® Introduces the 50ul & 20ul Perkin-Elmer/Packard CCS tips for PlateTrak, MiniTrak, and Evolution P-3 Workstations

San Diego, CA – August 2003, Molecular BioProducts, Inc., the leading manufacturer of pipet tips for automated workstations introduces its newest addition to our line of Perkin-Elmer/Packard products: the 50ul and 20ul Perkin-Elmer/Packard CCS tip for PlateTrak, MiniTrak and Evolution P-3 workstations.

These new tips are readily available through Molecular BioProduct's large worldwide distribution network

The new Perkin-Elmer/CCS Packard 50ul and 20ul tips are available in sterile, non-sterile, or with our patented ART® self-sealing barrier (filter). MBP's new tips, as with all of MBP's BioRobotix™ brand products, are quality control tested on the workstations for which they were created in our QC lab, both during production as well as before final lot release.

For more information or to request a free sample, log on to Molecular BioProducts' web site at www.mbpinc.com, send an email to info@mbpinc.com, or contact us at (800) 955-2787 or (858) 453-7551.
